

# PLAYBALL: LADDER SUMMARY EXPLAINED

The new method of calculating ladder positions eliminates a perceived unfairness that previously existed. In previous seasons, teams were awarded 2 points for a BYE. Where teams had multiple byes and other teams had less byes, they may be put at a disadvantage (or advantage) based on their ladder position at season's end. The new method shown below, eliminates byes from the PTS calculation. This method of calculation is also used by Southern Basketball Association.
